

**Curriculum International PhD program**  
**“Homeostatic and Regulatory Functions of Endothelium”**  
**Summer 2016**

<i>Day / Time</i>	<i>Date</i>	<i>Title</i>	<i>Speaker</i>
Thursday 5 pm	12.05.	Endothelial cell biology, part I	Prof. Thomas Noll, Institute of Physiology, MTZ
<b>EH&amp;D Internal Speaker</b> Thursday 5 pm	19.05.	Comparison of peptide and pharmacological ACE inhibitors: preprogramming effects in kidney and retina	Dr. Melanie Martin, Institute of Physiology, MTZ
Thursday 5 pm	26.05.	Endothelial cell biology, part II	Prof. Thomas Noll, Institute of Physiology, MTZ
Thursday 5 pm	02.06.	Imaging in clinical studies and routine clinical practice	Prof. Esther Troost, OncoRay Dresden
Thursday 5 pm	09.06.	Animal models and radio-biological endpoints for translational research	Dr. Lydia Koi, OncoRay Dresden
Thursday 5 pm	16.06.	Examples of animal models for imaging	Dr. Antje Dietrich, OncoRay Dresden
Thursday 5 pm	23.06.	What is science? What is scientific research?	Prof. Andreas Deussen, Institute of Physiology, MTZ
Thursday 5 pm	30.06.	Research questions and hypotheses	Prof. Andreas Deussen, Institute of Physiology, MTZ
Thursday 5 pm	07.07.	Milestones of the European history of science	Prof. Andreas Deussen, Institute of Physiology, MTZ
Thursday 5 pm	14.07.	Invited speaker seminar	t.b.a.

All lectures take place in the seminar room B.20.032 (2<sup>nd</sup> floor, MTZ) if not mentioned otherwise.

**Everyone is very welcome!**
