

Measure	Previous regulation	New
Restricted access to the workplace	Restricted access to the workplace: 3G (proof of vaccination, recovery, or negative test)	Access to the workplace no longer restricted
Mobile work (working remotely)	<p>Employer: Required to allow remote working insofar as the job can be done from the employee's home</p> <p>Employees: Required to accept this offer unless there is a compelling reason not to</p>	<p>Urgent request: Employees should make use of the options made available in the service agreement on remote working to reduce the risk of infection during the commute and minimize contact to other people. Prerequisites include that the task is suitable for remote work and the supervisor agrees to allow it.</p> <p>The agreement should be laid out as generously as possible and remote working should therefore be allowed to the greatest extent possible.</p> <p>This applies in particular for employees who are at high risk for a severe progression of diseases, including pregnant people, people who come into contact with infected individuals, etc.</p> <p>The valid interests of individual members of staff (e.g. childcare requirements in the event of the closure of childcare facilities, see the detailed information pertaining to this topic on TU Dresden's coronavirus information website) should be taken into account appropriately.</p>
Double occupancy of offices	Should be avoided to the extent possible; if necessary, safety measures should be taken (e.g. Plexiglas shields)	Unchanged

Cold symptoms	Access ban: Work to be continued remotely if possible or sick leave taken.	Urgent request not to come to work; work to be continued remotely if possible or sick leave taken (doctor's note; also available by phone until May 31, 2022).
Masks	FFP2 masks required in enclosed areas	Urgent request to wear FFP2 masks in enclosed areas that are accessible to others (lobbies, hallways, etc.). This applies in particular when the minimum social distance cannot be maintained. Unit 4.5 – Safety at Work can be contacted if necessary.
Rapid lateral flow tests (self tests)	Employees who do not work exclusively remotely may receive up to 2 self-tests a week for free.	Employees who do not work exclusively remotely may receive up at least 1 self-test a week for free. If possible, 2 tests should be taken per week. Employees can also use the test center at TU Dresden and are asked to do so, especially in cases of contact with infected persons.
On-site meetings	Personal contact should be avoided wherever possible.	The necessity of personal meetings should be critically assessed and virtual meetings should be employed if possible to avoid or reduce direct personal contact.
General health & safety and hygiene stipulations	Ensure good hand hygiene as well as coughing and sneezing etiquette (into the elbow). Refrain from shaking hands.	Unchanged
Ventilation	It is requested that enclosed spaces be regularly ventilated.	Unchanged

Disinfection of objects, doorknobs and the like	Objects and surfaces with which many people have contact (doorknobs, kitchenettes, copiers, etc.) should be cleaned or disinfected with a common cleaning agent more than usual, especially by the users.	Unchanged; due to the increased number of visitors and people on site, special attention should be paid here.
Workstations which receive visitors	Employees at workstations which receive increased numbers of visitors should receive special protection.	Unchanged; the necessity of special protection due to increased numbers of visitors should be reviewed (agenda item – measures).
Infection reporting	Please contact Occupational Health Services / Directorate Personnel	Unchanged
Business Trips	Business trips should be reduced to an absolute minimum or only be carried out if absolutely necessary and in compliance with health & safety (distancing) regulations; when taking a business trip abroad, make sure to comply with potential quarantine requirements when returning. Business trips to areas with a high number of cases involving virus variants must be avoided at all costs.	Business trips are possible, but their necessity should be critically reviewed. When booking (especially with regard to expected spikes in infection rates), please look out for generous cancellation conditions.
